

Dreams come true – 2015

Josef Haid

No way out

Sometimes in life you feel there's no way out
All your hopes and dreams turned into doubts
Lots of liabilities keep dragging you down, keep dragging you down ...

No way out, you're feeling like you're getting nowhere
No way out, don't know how to turn your life around
No way out, only roadblocks all around
and you're feeling drowned.

You can't sleep at night your thoughts keep spinning round
Losing faith no solution can be found
Feeling betrayed, all alone just losing ground, just losing ground

No way out, you're feeling like you're getting nowhere
No way out, don't know how to turn your life around
No way out, only roadblocks all around
and you're feeling drowned .

Is there really no way out? Should you run and hide?
Should you really give it all up and leave it all behind?
No, a voice deep inside, said you never ran away,
Put away those fears, just trust yourself its all in you its all in you

Your way out, it takes some time and some extra rounds
Your way out, step-by-step you regain ground
Your way out, together with your friends, together with your friends, together with
your friends, you'll find your way out.
